

Now is the time to buy Dry Goods for about Feb. 1st we will invoice our stock, and in order to save labor, we will close out a good share of our Mammoth stock of dry goods and notions, and will, therefore, offer bigger bargains than ever before.

We have about 3000 yards of Medium and Light Prints, that we will sell (to close out)

AT 3 1/2 CTS. per yard. All other goods as cheap in proportion. Call in and take this chance in, as you will never have an opportunity to buy as cheap hereafter.

KLOEPFER & BOFINGER.
LaPorte Street,
PLYMOUTH, IND.

The Republican.
THURSDAY, JANUARY 9th, 1879.
West's Liver Pills cure Bilepsia.

CITY AND COUNTY.

—A light fall of snow Tuesday night.

—John Hubam on the streets again.

—Aldrich, the horse-buyer, was in town Tuesday.

—Services at the Presbyterian Church every evening this week.

—Grand masquerade ball at the Centennial Hall to-morrow night.

—A party of the intimate friends of James H. Brink surprised him last Friday evening.

—Will Bray, of LaPorte, was visiting friends in this city last week. He has a host of them here.

—J. N. Hess, of Argos, contemplates visiting Arkansas soon, and may make that his future home.

—Wanted—At this office, an active, intelligent boy, from thirteen to fifteen years old, to learn the printer's trade.

—It is almost impossible to get any news except in regard to the weather, that being the all-absorbing topic in town this week.

—The engine-boller in the Democrat office burst last Thursday, and we understand, had to be sent to Chicago for repairs.

—F. J. Patterson removed about two bushels of ice from his meat shop Monday morning. It was taken from the walls and ceiling.

—There are a number of ears in this vicinity that will need time, and warm weather to restore them to their original color and size.

—Merchants who advertise now can be depended on as live, enterprising business men, and it always pays to trade with men of that kind.

—The horses of this vicinity were generally much pleased with the weather Thursday and Friday. It gave them their first rest for three weeks.

—The signal service predicts that a cold wave, exceeding in severity that of last week, is coming, and will probably strike this section of country to-day or to-morrow.

—Eighteen degrees below zero last Thursday morning, and from twenty-two to twenty-six below Friday, thermometers varying according to locality, is the story the mercury told.

—Dr. J. Hoover, formerly of Argos, we believe, has left Sextonville, Wisconsin. We do not know where he has gone; but the Postmaster at Sextonville notifies us that he has moved away.

—Crawford, the crockery man, will soon occupy a room underneath the Republican office. If our heavy presses should break the floor, and they, with all the boys and "Danbury Jim," come down in that room there would be a smashing of crockery ware.

—Variety is the spice of life, but there was not variety enough in the weather during the last three days of last week to make it spicy. We should recollect, however, that there was a difference of a 130 degrees, or such matter, between the weather of last summer and last week.

—Those fellows that want so badly to find the north pole should have started in search of it last Thursday. Our carrier says it was not far from here.

—John Mueller has "lots" of work at the tinsorial rooms, but John and Jim can do work with neatness and dispatch, so go right along and get your hair cut and yourself "silked" up in style.

—Col. J. H. Rice, business manager of the Argos Wallace-Villa Dramatic and Opera Combination, was in town yesterday, and informs us that this celebrated troupe will be at the Opera House in this city next Friday evening, Jan. 17th.

—Jerry Blain wants the man who took the old thermometer that had been hanging up so many years on the north side of their store, to bring it back. Old memories cluster around that thermometer, and the firm would give half a dozen new ones for it.

—The ice crop is immense, and hundreds of tons have been laid up during the past week. We saw Wm. Hill putting up ice Monday that had been taken from the same place that he got ice the Wednesday previous, having frozen about sixteen inches in four days.

—We have heard of quite a number of sleighs upsetting last week, caused by fast driving and the drifted snow. One case, occurring a couple of miles north east of this city last Friday, was especially ludicrous, the lady being thrown head-foremost into about three feet of snow.

—Charley Reeve is now in Indianapolis, we suppose, looking after the interests of his constituents in this Senatorial district; that's what he ought to be doing anyhow. Mr. Reeve is a Democrat, and we suppose "Pian" Buchanan has not much hopes of securing his vote against the "Tall Sycamore."

—Dr. Conter left Monday night to attend the session of the Legislature which convenes to-day. So far as we know, the only bad thing that the Dr. now contemplates doing while there is to aid in the election of Voorhees to the United States Senate, and we have not much doubt but that he will live to regret it as much as we now do.

—Preparations are now making for the erection of a fine brick block where the First National bank, Tanner's drug store, the barber shop and millinery establishment now stand. When that side is filled out with brick business houses, as it soon will be, Plymouth will have three of as fine brick blocks as can be found in this part of the State.

—Mrs. S. M. Babcock was very much surprised New Year's night, by a crowd of ladies and gentlemen rushing into her house and taking almost absolute possession; but they were all her friends, and she has a host of them. To say that they enjoyed themselves, and that the genial hostess did her share in making them happy, would be superfluous.

—Our Green township correspondent last week gave very full minutes of the Green township teachers' institute, but as we had another report of the institute in type, and had to leave something out, we left "Old Ned's" report. Now "Old Ned" avers that the next institute will be held at the "Gun Swamp" school house. Everybody interested will please remember.

—You who are in arrears one or two years should not forget what we said last week, that you can save money by paying before the 25th of January. Call and see us or send the whole or part by registered letter, or post-office order, or by a neighbor. You will find it to your interest to let us hear from you. We hope to retain every one of you on our books, but you will understand that we cannot do this unless we get something in return.

—The Good Templars of this city will, about the first of February, present our citizens with a thrilling drama, in three acts, entitled "Humor, or the First Glass." Having a room of their own wherein to rehearse until perfect, and possessing considerable talent, they will no doubt give an entertainment far superior to the average troupe. The citizens of Plymouth should avail themselves of this opportunity of witnessing one of the best dramas ever presented here.

—A young man named Fisher, residing at Warsaw, and until recently employed on the wood-train of the P. & W. & C. railroad, was promoted to the position of brakeman on the through-freight a few weeks since, and Monday night was found dead on top of a car when his train reached Hamlet. The supposition is, that in passing over the bridge near Donaldson he was struck by some of the timbers and killed. The Coroner of Starke county held an inquest, but we have not learned the verdict of the jury. The remains were brought here Tuesday evening, friends from Warsaw came here yesterday and he was buried in the Catholic cemetery.

—Last week's Democrat contained the farewell of Hon. Dan McDonald, Hon. Henry A. Peed, of Martin county, taking possession as editor, publisher and proprietor of that paper New Year's morning. During the many years that Mr. McDonald has been connected with the Democrat he has made many friends and perhaps fewer enemies than any other editor has ever made in the same length of time. In whatever business he may engage we wish him success. Mr. Peed, though a stranger here, is well known by reputation, especially in the south part of the State, as a politician and editor. We extend to him a cordial greeting, and wish him success in everything but politics.

Payee Personals.
Daniel Myers dropped in last Saturday and paid three years subscription to the REPUBLICAN, remarking I saw a black X on my paper last week and I don't want it stopped. That's the kind of a man Myers is, and if this county had several thousand such men, it would not be any worse we suspect.

Geo. Cox, well known as a former genial host of the Ross House, sends the news to his son in California, by sending him the paper that tells what takes place in Marshall and surrounding counties.

D. L. Gibson knows how to farm, and what to read, and almost everybody knows D. L. so we shall not say that he pays in advance for the REPUBLICAN and Indiana's Journal.

J. C. Balsey, of German township becomes a new subscriber. Jacob is a Democrat, but he understands that by supporting such papers as the REPUBLICAN he gets valuable information and advances his own interest and the interest of the county.

James Cook of this city, is another new subscriber, and among all of them there is none more deserving of a good word than "Jim." The boy that is always willing to work, pays as he goes, and keeps himself posted by reading the news, should be encouraged.

Joseph Rorer, of Wolf Creek, like most of our subscribers in the south-west part of the county keeps his paper paid for in advance, and of course we were glad to make his acquaintance, Monday—We always are of such men. We have never been in that part of the county, but we guess we could afford to pay a premium for subscribers down in that vicinity, as they always pay for their paper.

There was on our subscription list a name that we could never pronounce, because we could not tell what the characters were in which it was written. We always made characters like them, and the paper was always delivered to some one, but to whom we had not the remotest idea; but it is all clear now for on Wednesday J. Fraleigh came in and laid down two dollars and we found that the paper was intended for him. Jacob is an honest man, just the kind of man we like to send the REPUBLICAN to.

A. R. Jacoby is a young man of good sense. He begins the new year by subscribing for the REPUBLICAN and Inter-Ocean.

Thomas Hamlet shows his appreciation of our efforts to make a good paper by paying more than a year in advance. Thomas is a number one fellow any how, energetic and reliable. Such men make a good country.

Be wise in time and procure Dr. Bull's Cough Syrup, which always cures Coughs and Colds, and prevents consumption. Price 25 cents.

Confectioneries and canned goods, also all the sweet meats that can be desired, at Fred Koontz'.

PETER BECKER—Tonsorial Artist, can now be found by his friends at the shop of A. C. Holtzendorf, in basement, corner of Michigan and LaPorte street.

—Barney Ryder and James Wattles can always be found in their nice new shop hammering away, ready to give you any kind of work you want in the boot and shoe line.

When you want your hair cut in style or anything else in the tonsorial line you will of course go to Becker & Holtzendorf, the best barbers in the city.

ALLEN COLK, well known to the citizens of Plymouth, and for many years employed in our city, has established a Boot and Shoe Shop in connection with A. Short, under Leonard & Wilfong's bakery, on LaPorte street, where he will be pleased to see all his old friends and acquaintances. Repairing a specialty.

For Sale or Exchange.
80 acres of good land in Kansas at a bargain. Enquire of H. Corbin & Co.'s Real Estate Agency.

Horses Wanted.
The undersigned wishes to buy fifty heavy Draft Horses and a few driving horses. I will be at Plymouth, Tuesdays; Bourbon, Wednesdays; Warsaw, Thursdays; of each week during January, 1879. Farmers having above kind of stock to dispose of, will do well to bring them in early, as I will stay but one month. H. B. ALDRICH.

For Sale by R. Williamson.
Ten acres of land well improved, one mile north-west of Court House. Five acres equal to twenty lots in town of Plymouth all plank fenced. A dwelling house with one and one-half lots on Gano and Center streets. Store room and lot on Michigan Street. No better business block in the city. All will be sold on easy terms. His stock of merchandise will be sold at and below cost as usual, until all is sold. He wants to quit business if possible between this and spring. R. WILLIAMSON. Jan 9-2m

QUEST: "Why will men smoke common tobacco, when they can buy Marburg Bros. 'Seal of North Carolina,' at the same price?" 12-1y28.

Health Promoted.
Health is promoted by good and appropriate food. Such can only be had by using in preparing it, articles known to be free from poisonous adulterations, such as Dr. Price's Cream Baking Powder, which eminent chemists endorse as being perfectly pure and wholesome.

MARRIED.
Jan. 1, 1879, by Rev. Austin Fuller, Mr. Jefferson C. Richardson and Miss Kate J. Richardson, both of West township.

GREEN TOWNSHIP.
OLD NED.
An infant at Elijah Owen's. But few fat hogs remain in the township. 32 degrees below zero got away with Old Ned's toes.

Mrs. Horner, who has been dangerously ill for more than a month, is convalescent. Mrs. Harter, of Wabash, is visiting her sister, Mrs. J. Lowery, of this township.

Sickness is quite prevalent throughout the township—principally chills and lung fever. A fire at William Moore's recently which destroyed about 25 square feet of house roof.

The temperance meeting at Whipper will, like that of Jordan, continue to grow in interest. Charles Hudson, one of our prominent citizens, is building a condition to the south end of his destruction.

Charles Lawson is doing the painting on Joseph Lowery's new house. Mr. L. is a fine carpenter as well as a painter. H. Hand, has sold a large number of saw logs to Richard Williams, of Argos, who is busily engaged in hauling them to that point.

The school house nearest the southeast corner of the township, known as the "North" school house, is the oldest school building in the township, and should be replaced by a new building.

If the light who has had a "smashup" and does not use bad language, gets killed on "just over the river," we venture to say that there quite a number of tallies over there for "Old Ned."

Carried over last week.
BREMEN.
BY HANK.
Cold, coldest. The mercury fourteen below today, last week.

Mr. Cox and Mr. Burrett were in town on last Monday, from Tynes City. Wm. Dietrich and his friends returned to Baltimore after a short visit here—his home.

James Lane lost two of his children with diphtheria, one on Saturday, and the other on Sunday last. A son of Mr. and Mrs. J. Grile, who reside near Plymouth, was buried here on last Sunday.

John Foltis has sold his dwelling to Jacob Volgger, sr. Mr. Volgger intends moving to town and take it easy. Our town has added another to its population. It is a girl weighing nine pounds, and is known as the daughter of Mr. and Mrs. Gullott.

A Tynes City life says he can't see why Bremen hasn't the items every week. It is because we haven't time to write hardly as often as we do.

On last Monday, while unloading a safe for the new hardware store, it fell from the sled to the sidewalk, cracking and sinking the sidewalk considerably. A number of sleighs went to Plymouth Sunday. The occupants reported a lively time while there, and that certain fellow is said to be not playing Sunday in Plymouth.

WEST TOWNSHIP.
G. M. CHATZ.
It costs West township \$19.10 per day to run her schools. The wife of Charles Zumbach has become insane, caused by religious excitement.

Speyer, of Plymouth, is running the store at Donaldson formerly occupied by Lem Day. Married, at the residence of Elder Knisely, Mr. D. Myers, of Colorado, to Miss Christie Cramer.

Now is the time to get your fishing tackle ready for fishing through holes in the ice. We have eleven lakes in this township where the funny tribe may be found. The Institute at the West school house last Saturday passed off pleasantly, nearly all the teachers being present. The next, a joint institute of West and Union townships—will convene at the South school house the first Saturday in February.

Died, Jan. 1st, Mrs. Eliza Freese, of congestion of the brain. The deceased was in her forty-first year, was a member of the United Brethren Church, a kind wife and a loving mother. She leaves a husband and a large family of children to mourn their loss. The funeral services were conducted by Rev. W. G. Cook.

Wm. Morays says he means it, when he wants it understood that while he is janitor of the German Baptist Church there must be no chewing and spitting tobacco inside the church. It is really disgusting to see young men chewing tobacco during the services, using both pew and aisle as a great spittoon, to the annoyance and mortification of those who venerate the place dedicated to the worship of God.

TYNER CITY.
OCCASIONAL.
G. W. Boyd is on the sick list. Dr. Sampson reports sickness on the increase. Mrs. M. J. Osborne, of Chicago, is visiting at Mr. Boyd's. Thos. Tyner, sr., has gone to Dupont, Ind., to visit friends. Mr. Helminger, our shoemaker, moved to Tregarden this week. Parties wishing a location for a saw mill, would do well to examine this point. One of our young men thinks that the bomb electric light is made by the flash of a pretty girl's eyes. Dr. Dick Richardson returned to Chicago Monday, to resume his studies. He expects to graduate next April. E. S. Bissell has under consideration the erection of a grain elevator at this point. This is a move in the right direction, and our citizens should give him the necessary encouragement. John Batterson, recently a resident of Tyner, was tried at South Bend last week on a charge of rape. The jury returned a verdict of guilty, and a sentence of twelve years in the state prison. We understand his counsel have moved for a new hearing. It is said that no newspaper is free from censure. If people were only as willing to pay up as they are to offer advice, publishing a paper would prove a pleasure rather than what it now is—a effort to

eat out a precarious existence, and pay for the privilege at the same time. The Blue Ribbon entertainment, New Year evening was a grand success. The M. E. church was packed with an appreciative audience, and all went away happy. The programme consisted of temperance dramas, declamations, farces, tableaux, interspersed with vocal and instrumental music; and all performed their parts well. The Union realized about twenty dollars from the entertainment. After the close of the entertainment, about forty Murphys repaired to the residence of Mr. G. M. Richardson, where a splendid supper was spread, and the remainder of the evening was spent in tripping the "light fantastic toe."

WALNUT.
LY DAN.
The weather has thinned us out. Mercury down to 23 below zero the 3d, at this place. If you want a both of hot air, step in to our hot air bar-room. Nothing like it. Dillon & Gibson keep the hog trade alive. They ship some this week. The school a short distance east of this place, taught by S. N. Stevens, is a model school.

Henry Fisher's car took him blisters five for ever leaves, except in color. He froze 'em. Nothing to drink at the saloon but hops and hoop-poles. Jack Boltenbaugh prepares them. Wm. Gordon brought 6500 pounds (114 1/2 bushels) of wheat to town at one load with his little team.

The people of this place that attended the temperance entertainment at Argos, think it was a grand bore—the crowd was too big. S. C. Gray, the proprietor of the hoop shaving enterprise is getting "dead loads" of poles. He is one of our most enterprising citizens. G. W. Burrett's restaurant kept his last week, which was extinguished before any damage was done. The cause, as usual, a defective flue.

The school in this place, in our judgment, is a success. As a teacher we don't think Mr. Shaker can be beat, especially in grammar and arithmetic. Wm. McClure is one of the most genial hotel proprietors in the country. He gives you satisfactory proof that his goose and turkey take times a day, and then white his hands to eat at 12 o'clock at night.

Elder Luce, President of the Indiana Methodist conference, addressed the people of this place last Sabbath, and said some things appropriate for the people of this place and we hope it will not be as pearls cast before swine. A meeting was held in the old saloon building to choose two delegates to the State N. C. T. U. convention, at Indianapolis. James Repetto and Wm. Bunnell were chosen. A better choice could not have been made, as Mr. Repetto is one of the best lecturers and temperance workers in the county, and Mr. Bunnell is not far behind.

Mr. and Mrs. James Repetto gave a supper in memory of their twelfth marriage anniversary which, was attended by the young folks. The table, which groined under its load of good things, did credit to our hostess, and the music and mirth to the company. After the New Year had been ushered in our host, assisted by C. W. Shakes, sang a song, and then we adjourned for one year.

Teacher's Institute.
The teachers of Union township convened in institute at the Mt. Pleasant school house, January 4th. The house was called to order by G. A. Netherbott, president. The exercises were opened by the reading of a portion of scripture by the president, and prayer by Dr. Dunlap. The programme was disposed of as follows: First—Essay, Mollie Duddleson; subject—Discipline. Second—Compound Numbers; Scott Foss. Third—Reading; L. C. Zechiel. Afternoon session: First—Proposition; Sol. Cavender. Second—Declaration; Fred. Zechiel. Third—Penmanship; G. A. Netherbott. Fourth—Primary Spelling; Charley Shaw.

The teachers unite in extending their thanks to the patrons for the excellent dinner prepared for them. Institute then adjourned to meet in a joint institute with the teachers of West township, Feb. 1st, at the Sower's school house.

G. A. NETHERBOTT, Pres.
MOLLIE DUDDELESON, Sec'y.
Children cry for it, but they stop crying at once, after they have taken a single dose, as Dr. Bull's Baby Syrup cures all the pains our little ones are subject to. Price 25 cents a bottle.

Tax Constitutional Catarrh Remedy does something more than merely repress or suppress the symptoms of the disease—reaching its constitutional causes, it restores the vitality, energy, which is the natural antagonist of sickness and physical decay. Because when the animal powers and the capacity for mental exertion are denuded for the time being either by convivial indulgence or any other debilitating agency, it speedily restores the equilibrium of the system, and the ability to think and labor. See advertisement.

Vanilla.
Steele & Price annually consume, in the manufacture of Dr. Price's Extract of Vanilla, more of the finest quality of Mexican Vanilla than any other makers of extracts, and it is by the use of the finest quality that Dr. Price's Extract of Vanilla obtains its rare excellence.

Backler's Arnica Salve.
The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This Salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box.

Sweet Odors.
Almost every flower that possesses a desirable odor is used in the Unique Perfumes made by Dr. Price. It is from these flowers that Dr. Price's Perfumes obtain their peculiar sweetness and floral character. His floral Rubies, Petal Rose, Hyacinth and Alissa Bouquet are the fashionable odors.

Steele & Price's annually consume, in the manufacture of Dr. Price's Extract of Vanilla, more of the finest quality of Mexican Vanilla than any other makers of extracts, and it is by the use of the finest quality that Dr. Price's Extract of Vanilla obtains its rare excellence.

Vick's Floral Guide.—Of the many Guides and Seed and Plant Catalogues sent out by our Seedsmen and Nurserymen, and that are doing so much to inform the people and beautify and enrich our country, none is so beautiful, none so instructive as Vick's Floral Guide. Its paper is the choicest, its illustrations handsome, and given by the hundred, while its Colored Plate is a gem. This work, although costing but five cents, is handsome enough for a gift book, or a place on the parlor table.

Vick's Seeds are the best in the world. Send FIVE CENT STAMP for a FLORAL GUIDE, containing List and Prices, and plenty of information. Address, JAMES VICK, Rochester, N. Y.

Uranine.
This is the most recently discovered, and perhaps the most remarkable, of all the color fast or aniline group of coloring substances, now so extensively used for the adornment of the finest fabrics. Uranine is said, by chemists, to be the most highly fluorescent body known to science. Its coloring power is astonishing; a single grain will impart a marked color to nearly five hundred gallons of water.

A most interesting experiment, which anybody may try, consists of sprinkling a few atoms of Uranine upon the surface of water in a glass tumbler. Each atom immediately sends down through the water what appears to be a bright green rootlet; and the tumbler soon looks as if it were crowded full of beautiful plants. The rootlets, now begin to enlarge, spread and combine, until we have a mass of soft green colored liquid. Viewed by transmitted light, the color changes to a bright golden or amber hue; while a combination of green and gold will be realized, according to the position in which the glass is held. For day or evening experiment nothing can be prettier than these trials of Uranine, which as a especially entertaining for the young folks. We are indebted for examples of the color fastness of the Scientific American, who are sending out specimens, free of charge, to all their readers. The subscription to the paper is \$3.20 for a year, or \$1.60 half year; and a better investment for the money could hardly be named.

Facts That We Know.
If you are suffering with a severe cough, cold, asthma, bronchitis, consumption, loss of voice, tickling in the throat, or any affection of the throat or lungs, we know that Dr. King's New Discovery will give you immediate relief. We know of hundreds of cases in which Dr. King's New Discovery has completely cured, and that where all other remedies had failed. No other remedy can show one-half as many permanent cures. Now, to give you satisfactory proof that Dr. King's New Discovery will cure you of Asthma, Bronchitis, Hay Fever, Croup, Consumption, severe Coughs, Colds, Hoarseness, or any Throat or Lung disease, if you will call at L. Tanner and Co.'s Drug Store, Plymouth, you can get a trial bottle for ten cents, or a regular size bottle for \$1.00.

Breads, Headquarters for Oysters, Kneads, Pies, Cakes and everything in the pastry line, fresh and of the best quality.
Modesty is the appendage of nobility, and is to chastity, to temperance, and to humility, as the fringes are to a garment.

An Honest Medicine.
Of all medicines advertised to cure any afflictions of the Throat, Chest, Lungs, we know of none we can commend so highly as Dr. King's New Discovery for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness, Tickling in the Throat, loss of voice, etc. This medicine does positively cure, and that where everything else has failed. No medicine can show one-half so many positive and permanent cures as have already been effected by this truly wonderful remedy. For Asthma and Bronchitis it is a perfect specific during the very worst cases in the shortest time possible. We know by all means give it a trial. Trial bottle ten cents. Regular size \$1.00. For sale by L. Tanner and Co. of Plymouth.

Veritable and Human Diseases.
The disease known in orange culture as the "setback," characterized by an unusual appearance of thriftiness, is exactly paralleled in the human system by the disease known as obesity, or excessive fatness, in which the victim seems to be enjoying an exceptional degree of physical vigor. Besides being a disease in itself, obesity generates apoplexy and heart disease, and its victims are peculiarly susceptible to all forms of acute affections. Allan's Anti-Fat will reduce the bodily weight from two to five pounds per week. Try it, all you heavily burdened ones! Sold by druggists.

Election Notice.
The annual meeting of stockholders of the Plymouth Building, Loan and Savings Association, will be held at seven o'clock, on Monday Evening, at seven o'clock, January 14th, for the election of nine directors, to serve for the ensuing year, and such other business as may come before the meeting of stockholders.
